

Change aircraft livery PMDG 737 NGX

I find that the Wings of China Boeing 737-800 NGX has a better colour separation, making it more distinguishable. May 13, 2020 How do I remove wings on a 737NGX. I have the wing files and the basemap for the NGX but I don't know how to add the wings and the emblems. . Aug 24, 2019 buxuzhi, I used this website to help me setting up an Air China NGX for FSX. I cannot find PMDG 737NGX on the in-flight menu, there is only 737 NGX. Are there any other 737s that you know that are for FSX? The reason I ask is that I want to re-make the PNG of the Boeing NGX as it does not have the link for FSX. . Apr 22, 2020 If you are using PMDG 737NGX for FSX, which plane do you have? have you tried other 737s after installing the NGX for the PMDG 737NGX? As this plane was not previously compatible, this may be why the retrofit does not display any. . Apr 22, 2020 I've been wondering for a long time what happens to the original 737s after the 737NGX is installed on them. Is there anything important that they don't have in their spec sheets? Apr 22, 2020 I'm using the fsX NGX and have installed the 737 NGX for freeflight. When I go to system specifications, I get my original tail number (B-5422) and I don't get the Winglets. . After installing the 737 NGX, I don't get the Winglets in the system specifications but do in the specifications for freeflight. There is a link for freeflight that says 737 NGX. What is this link? And in the "delivery" tab, I don't see the NGX and I don't see any 737s with a Winglets. . UPDATE: May 12, 2020 In the previous installment of PMDG 737 NGX (Air China 737 NGX OEM NGX FSX) I answered the question that If I install it to the PMDG NGX WINGS OF CHINA or PMDG 737 NGX WINGS OF CHINA (WINGS OF CHINA WORKSHOP EDITION), does the winglets work as they are or do
