da 40 tdi fsx Tonight I decided to go to a nightclub, I couldnâ€™t start it the first time, as I didnâ€™t turn it, but it didnâ€™t catch even when

the ignition was turned on, I already thought that maybe the candles werenâ€™t working, or something else. As a result, I still started up, but the car worked, as if the speed was standing still, that is, it did not respond to the gas pedal, when I tried to drive when starting off, the car stalled and did not start, I

tried both manually and with the
gas pedal, but nothing didn't
help.
