■ Game Features ✓ Sandbox Enjoyable Offline Play Arena life, which is the same as in the game, is introduced. At first, your character is starting from the ground zero, and you need to use the flow of time in that world to raise your level. Once you reach max level, you can raise the level of your equipment, characteristics, skills, magic, and items. The number of monsters appearing and the number of quest objectives you've completed is counted, so you can view your progress as you play. Arena life is seamlessly connected to the overall game, so you can continue a different experience from the previous one. ✓ Online Play with Battle-Style Multiplayer To enjoy arena life and the online game concurrently, you can switch between them freely. Among PvP modes that enable battle-style PvP, the player who attacks with a good attack will win. You can choose a mode where you have to survive by defending the area, or a mode where you're simply waiting for your opponents to attack. You can enjoy various PvP elements with players from all over the world, and enjoy special events, seasonal PvP battles, and other content. ✓ Raid Battle The Only

Game with an Active Raid Battle System Even while you're in the game, you can enjoy a variety of online content, including mini-boss battles, the Raid Battle, and PvP battles. When you bring your character to "White Mountain" or "Black Rock", the roles of the boss and the player are reversed, and you can enjoy a change in difficulty. A variety of different costumes will be available depending on the raid battle results, so you can enjoy the experience of racing against a higher-level character wearing a good costume. You will no longer be asked to pay for premium services to use the Raid Battle, so the Raid Battle can be enjoyed at any time. ■ Story and Characters Adel: An Elven warrior. He has been sent to investigate the nearby ghost town. Gebel: A bloodthirsty mercenary. He has been hired to assassinate an enemy. Hanesh: A traveler. ■ Classes and Promotions Each class has a unique set of skills. The combination of these skills and the items you equip, as well as the levels of the skills, determines the effectiveness of your character.
