Office Password Recovery Lastic is a handy and easy way to recover your lost passwords, unlock inaccessible files, recover corrupted files and easily remove or recover all type of.Q: Android : Storing a Number in a Shared Preference I want to store a double value in a sharedpreference and get it later. I have tried the following code. This code gets the long value and stores it. But when I put it in a single line using the %d format, it shows a syntax error. I tried it in jdbc as well and when I try to get it, it returns null. What is wrong?

```
public void calculateCorrections() throws IOException, DBException { ContentValues cv = new ContentValues(); cv.put(Col_Name, mName); cv.put(Col_City, mCity); cv.put(Col_Type, mType); long _ID = mDBHlpr.insert(mTableName, null, cv); long _ID2 = mDBHlpr.insert(mTableName2, null, cv); SharedPreferences pref = PreferenceManager.getDefaultSharedPreferences(mContext); Long userID = pref.getLong(Col_User_ID, 0); Long userID2 = pref.getLong(Col_User_ID2, 0); Long colID = (userID == null)? _ID : userID; Long colID2 = (userID2 == null)? _ID2 : userID2; try {
```

```
mDBHlpr.update(mTableName, cv, Col_ID + "=?",
