System Requirements For World Cities Database - Excel:

To install the beta, you will need to uninstall the previous version before installing the new version. Please download the.exe file from the downloads page and double-click to install the beta version. This beta version is intended for first time users to assist with the new format in which content is stored on the game. If you would like to help test additional content on the beta version of the client, download the "FTB Official Release" file from the downloads page, and extract it.Tuesday, November 8, 2009 Last night
